LUNA MARTINEZ

>>> DJ AND PRODUCER

booking@lunamartinez.net

Electronic music artist and producer based in Berlin.

ABOUT ME.

Luna Martinez is an electronic music artist and producer with over 20 years of experience in the music scenes of Barcelona, London, and the Balearic Islands, currently based in Berlin.

Her **artistic project** is defined by blending diverse musical styles to create **immersive atmospheres through sound**, with sets performed either exclusively on vinyl or in a hybrid format.

“ Her music is not only heard, but experienced - a journey where subtlety and intensity coexist in constant balance ”

Her music — delicate, austere, and elegant — carries a **perfect groove for festivals, clubs, and bars**, always driven by careful selection and progression.

Following her **debut track “Tesis”** (February 2024), Luna went on to release **“Cosmos”** and **“Orion”**.

She is currently working on a **new project, soon to be unveiled**, where she continues to develop a personal and contemporary sonic **identity** crafted between **Berlin** and her creative sanctuary in **Formentera**.

Throughout her career, she has explored **genres** such as Indie Dance, Melodic Tech, Deep, and Minimal Groovy, integrating them into **carefully curated and fluid musical narratives**.

Her international profile grew after performing at DGTL Madrid 2019, sharing the stage with artists like **Tale Of Us, Oscar Mulero, Dixon, Laurent Garnier, and Nina Kraviz**.

Under her **alias UMA**, Luna develops a parallel project focused on Techno, **expanding her artistic spectrum** without diluting her distinctive **musical identity**.
